SCHOLARSHIPS
AVAILABLE!

What is *Camp Rocky*?

Camp Rocky is a week long, residential camp for **14 through 19 year olds** who enjoy the outdoors and are interested in natural resources. The camp is located just outside Divide, Colorado. Camp Rocky's professional staff helps participants learn about their environment through hands-on experiences. The students work in teams, making new friends from across Colorado. Each year, new and returning students choose one of the following resource fields for their area of focus.

Recreation Management

The recreation management team learns about the importance of managing natural areas for human recreation. They will learn about trail construction and maintenance, assess campsite use, practice orienteering, create interpretive signs and discuss the importance of "Leave No Trace".

Forest Management

The forestry team learns about different forest types, how to determine the overall health of the forest, how to find a tree's age without cutting it down, different insects and diseases that affect trees and how fire can be beneficial to forest health and safety.

Rangeland Science

The rangeland science group learns about the "fitness" of the rangeland and the forage it provides. They will see how rangelands provide food for animals, habitat for wildlife, and open space with natural beauty for humans to enjoy, and clean water for drinking and recreation.

Soil and Water Conservation

This team learns about the primary components of a watershed. They will "create" a river and learn how different types of soil affect plants, wildlife, water and humans.

Fish & Wildlife Management

The wildlife biology team will track a radio-collared animal, go electro-fishing, learn how Colorado wildlife adapt to their surroundings and complete a habitat enhancement project.

During the second half of the week

- Students from the different resource teams will develop and present natural resource action plans.
- Participants will use their group plan to complete a management project.
- Additional activities include volleyball games, hiking, a campfire, the Camp Rocky Challenge, and a dance. At the close of camp, students will receive a **Camp Rocky Certificate of Completion.**
